

Management of Irregular Forests

"The success in making an operational tool to work on this complex subject that reconciles the multiple functions of the forest required exceptional experience. It required a profound understanding both of how the forest functions, and of the people who live within it and from it.

The various chapters of this book bear witness to these complementary qualities."

Jacques BLONDEL

BOOK OFFER

The AFI is offering you the opportunity to buy Management of Irregular Forests at the price of £20.00 + £ 1.75 p&p on deliveries to the UK or €22.00 + €5.00 p&p on deliveries to the Euro zone.
